

Research Assistantship Opportunities

The Advanced Electromagnetic Technologies Research Laboratory at Florida International University (FIU) announces Research Assistantship openings for Ph.D. students.

Professor Georgakopoulos, Director of The Advanced Electromagnetic Technologies Research Laboratory, is looking for highly motivated students that would like to pursue a Ph.D. degree in areas related to electromagnetics.

Qualifications:

1. B.S. in Electrical Engineering. Preferably M.S. in Electrical Engineering with emphasis on electromagnetic.
2. Taken courses on electromagnetics, fields & waves, antennas, microwave engineering or related courses.
3. Preferably knowledge of electromagnetic simulation software.

Interested students should forward their resume as soon as possible (preferably by June 30, 2013) to Prof. Georgakopoulos at georgako@fiu.edu.

The announcement will remain open until positions are filled.

Selected students will be provided with research assistantships that will support them financially and cover their tuition. The selected students will work on high profile research programs on wireless powering of devices as well as novel antennas and RF systems. The research programs include collaborations with Georgia Tech and therefore students will directly work and collaborate with other researchers at Georgia Tech.
